

## Digests for palatability and claim

# Palatability for pets

## Business for you

### **Economy**

Using our digests in your cat and dog food improve the flavour of your products, resulting in optimal palatability and feed preference. Professional dog and cat taste panels say the same!

### **Premium**

### **Super premium**

Our digests come in economy, premium and super premium grade tailored to ensure the best possible solution for your pet food product. All based upon hydrolized raw materials of animal origin. The heat treatment part of the process ensures no microbiological and enzymatic activity in the finished digest, improving the shelf life.

### **Fresh raw materials**

Access to and supply of fresh raw materials are key competences of BHJ Pet Food. And your guarantee for a high and uniform quality. The raw materials are all fresh category 3 material transported cold from the abbatoirs directly to our production plant.

- Fresh raw materials
- Innovative solutions
- Just-in-time deliveries

## Cat digests - for palatability

The standard pet food kibble can be regarded as unpalatable to cats. They lack olfactory and gustatory components, that are feeding cues to the cat. BHJ digests are designed to compensate for these shortcomings and give the kibbles the right olfactory and gustatory components on the surface.

BHJ cat digests are based upon hydrolyzed raw materials of animal origin.

### Typical chemical contents

Protein	11-13%
Fat	8-14%
Water	60-64%
Ash	5-18%
pH	2-2.8

## Dog digests - for palatability

Dogs are omnivores, and generally speaking an omnivore likes everything. Dogs are able to eat a wide range of different foods and show a strong preference for sweet food and a significant preference for potent meat flavours.

This knowledge is built into the BHJ dog digests, which are based upon hydrolyzed raw material of animal origin.

### Typical chemical contents

Protein	9-11%
Fat	6-12%
Water	72-77%
Ash	4-10%
pH	2.8-3.8

## Digests - for claim

Our claim digests are an alternative to speciality meal products used for claim purposes in pet food products as well as pet food biscuits. Our concept enables us to deliver you a variety of claims in small batches. A flexible and tailor-made solution to help you live up to your specific market demands. If you have a request, simply contact us.

### Liquid claim digests - product examples

- Tuna
- Trout
- Salmon
- Herring
- Shrimps
- Pigs' liver
- Pigs' hearts
